

FabLife Knife Sharpener

ENJOY SCIENCE AND TECHNOLOGY, ENJOY LIFE IN KITCHEN!

IMPORTANT SAFEGUARDS:

- A) ALWAYS WEAR CUT RESISTANT GLOVES WHILE USING KNIFE SHARPENER ON YOUR NON-DOMINANT HAND.
 - B) DO NOT PUSH AND PULL YOUR KNIFE BACK AND FORTH, USE ONE DIRECTION ONLY.
 - C) FOR METAL KNIFE USE SLOT 1, SLOT 2 AND SLOT 3 AND FOR CERAMIC KNIFE USE ONLY SLOT 1.
 - D) Don't pass Ceramic Knife through 'Coarse Slot' and 'Fine Slot'.
 - E) **THIS SHARPENER CANNOT SUIT FOR SERRATED KNIFE AND SCISSORS.**
 - F) Do not put the sharpener into the dishwasher. Just wash it manually or clean it with a soft cloth.
 - G) Keep out of the reach of children.
 - H) Don't place it near heat like cooking gas or stove, since it will damage the Rubberised coating on the body.
- ✓ **SLOT 1 CERAMIC:** (PREPARATION) Is Made Out Of Diamond Sharpening Rod And It Will Repair And Straighten The Damaged Blades Before Actually Sharpening Them.
 - ✓ **SLOT 2 COARSE:** (SHARPENING) Is Made Out Of Tungsten Steel Blade, It Coarsely Sharpens And Restore The V-Shape Cutting Edge
 - ✓ **SLOT 3 FINE:** (FINE TUNING) Is Made Out Of Ceramic Rod, It Helps To Finely Sharpen, Polish And It also Helps To Eliminate Burrs On The Blade.

TYPE OF KNIFE	SLOT 1 (CERAMIC)	SLOT 2 (COARSE)	SLOT 3 (FINE)
METAL KNIFE	✓	✓	✓
CERAMIC KNIFE	✓	X	X

* ✓ can be used | X cannot be used.

STEPS FOR SHARPENING:(FOR METAL KNIFE)

Step 1

Step 2

Step 3

Metal knife:

Place the knife sharpener on a stable surface when using.

Step 1: Use the middle Slot ie. 'COARSE Slot First. It Will Repair And Straighten The Damaged Blades Before Actually Sharpening Them. Place Metal knife on the Coarse sharpening slot, using slight downward pressure, run the blade from its heel to its point through the slot. Repeat three to five times. Do not push and pull your knife back and forth.

Step 2: Use 'CERAMIC Slot. Place Metal knife on the CERAMIC slot, using slight downward pressure, run the blade from its heel to its point through the slot. Repeat three to five times. Do not push and pull your knife back and forth.

Step 3: After finishing Step1 &2, pass Metal Knife through 'fine slot'. It's a necessary step which is used to eliminate the burrs on the knife and polish it. Place Metal knife on the Fine sharpening slot, using slight downward pressure, run the blade from its heel to its point through the slot. Repeat three to five times

Ceramic Knife:

Place the knife sharpener on a stable surface when using.

Step 1: Use 'Ceramic Slot' Only for Ceramic knife. Place knife on Ceramic sharpening slot, using slight downward pressure, run the blade from its heel to its point through the slot. Repeat three to five times. **Do not push and pull your knife back and forth.**

USE KNIFE SHARPENER VERY CAREFULLY FOR THE CERAMIC TYPE KNIFE BECAUSE OTHERWISE THE CERAMIC KNIFE BLADE WILL BE BROKEN.
